## **“THE CRISIS OF LEADERSHIP”**

**28 June – 02 July 2010**

Following the success of the first four sessions of the Summer University for Democracy organised by the Council of Europe for its Network of Schools of Political Studies, this event has become a major meeting point for young leaders from the public sectors of the “new Europe” to debate, exchange views and attempt to address the concerns of our time.

Each year, with the support of the European Union, the French Government and the local authorities of Alsace and Strasbourg, the Summer University for Democracy attracts an increasing number of participants and experts from outside the Network of Schools of Political Studies.

The 2010 Summer University will, for the second time, welcome participants from Africa through the co-operation between the Organisation Internationale de la Francophonie (OIF) and the Council of Europe, whose presence illustrates the growing interest in the Network of Schools of Political Studies beyond Europe.

The theme for this fifth session, “The crisis of leadership”, will examine the developments which have occurred in the exercise of power when faced with the crises of our time.

In order to meet the expectations of their citizens, what are the means and resources available today to governments at local, national and international levels? How can confidence in representatives be restored? How can values such as peace, justice and freedom be disseminated and promoted in non-democratic countries?

These topics will form the core of debate in the conferences and workshops of the Summer University for Democracy, which will be presented by experts and personalities from across Europe, Africa, Asia and North America.

A unique occasion to meet and exchange views in order to facilitate mutual understanding and dialogue, the Summer University for Democracy reserves two days for regional and bilateral meetings between the 16 Schools which constitute the Network.

The Council of Europe would like to thank all of the experts and dignitaries who have kindly accepted to contribute their knowledge and time to the fifth Summer University for Democracy, which is an additional step towards the creation of a more extensive annual Forum for Democracy in Strasbourg, open to the entire continent and beyond.

## **« LA CRISE DU LEADERSHIP »**

**28 juin – 02 juillet 2010**

Après le succès des quatre premières éditions, l'Université d'été de la démocratie, organisée par le Conseil de l'Europe pour son réseau d'écoles d'études politiques, est désormais le rendez-vous majeur des jeunes responsables des secteurs publics de la « nouvelle Europe » pour débattre, échanger et tenter de répondre aux interrogations de notre temps.

L'Université d'été de la démocratie qui bénéficie du soutien de l'Union européenne, du gouvernement français, des autorités locales alsaciennes et strasbourgeoises, attire chaque année davantage de participants et d'experts extérieurs au réseau des écoles d'études politiques.

L'édition 2010 de l'Université d'été de la démocratie accueille ainsi pour la deuxième fois des participants d'Afrique dans le cadre de la coopération entre l'Organisation Internationale de la Francophonie (OIF) et le Conseil de l'Europe, témoignant de l'intérêt croissant que suscite le réseau des écoles d'études politique au-delà de l'Europe.

Le thème retenu pour cette cinquième édition, « La crise du leadership », permettra d'examiner les évolutions de l'exercice du pouvoir face aux crises de notre temps.

Quelles sont aujourd'hui les capacités et les moyens dont disposent les gouvernants, à l'échelle locale, nationale et internationale pour répondre aux attentes de leurs concitoyens ? Comment restaurer la confiance des citoyens à l'égard de leurs représentants ? Comment diffuser et promouvoir les valeurs de paix, de justice et de liberté dans les pays non-démocratiques ?

Tels sont les principaux sujets à l'ordre du jour des conférences et ateliers thématiques de l'Université d'été de la démocratie, qui seront présentés par des experts et personnalités venus de toute l'Europe, d'Afrique, d'Asie et d'Amérique du Nord.

Moment privilégié de rencontre et d'échange propre à faciliter la compréhension mutuelle et le dialogue, l'Université d'été de la démocratie réserve deux journées à des rencontres bilatérales et régionales entre les 16 écoles membres du réseau.

Le Conseil de l'Europe remercie tous les experts et toutes les personnalités qui ont accepté d'apporter leur concours à cette cinquième Université d'été de la démocratie, qui se veut une étape supplémentaire sur la voie de la création à Strasbourg d'un véritable Forum annuel de la Démocratie ouvert à l'ensemble du continent et au-delà.

## INTERNATIONAL CENTER ON NONVIOLENT CONFLICT

The International Center on Nonviolent Conflict (ICNC) is an independent educational foundation that develops and promotes the study and use of civilian-based, non-military strategies by groups and campaigns aiming to establish or defend human rights, democratic self-rule and justice worldwide.

### **The Center's Activities**

Acting as a catalyst to stimulate the choice of nonviolent conflict, the Center collaborates with likeminded institutions, nongovernmental organisations and selected agencies to:

### **Educate Activists**

In response to requests, the Center provides support for workshops in nonviolent conflict attended by activists and citizens who are considering civilian-based, nonviolent action as a way to seek democracy or human rights. Such workshops impart conceptual knowledge and help develop skills in applying nonviolent strategies devised by such activists.

### **Educate the Global Public**

The Center uses television broadcast networks, the Internet, and off-air and offline media to disseminate video programming, books and video games, as well as learning materials for schools and universities. All these resources help promote the history and ideas of nonviolent conflict in open or closed societies where rights or self-rule are at issue.

### **Inform Policymakers and the Media**

The Center conducts meetings and briefings, co-sponsors conferences, and makes available articles and academic studies, to encourage decision makers to facilitate rather than hinder opportunities for civilian-based, nonviolent movements. These same tools are used to assist senior media producers and reporters to expand and improve coverage of nonviolent struggles.

## CENTRE INTERNATIONAL SUR LE CONFLIT NON VIOLENT

Le Centre International sur le Conflit Non-violent (ICNC) est une fondation éducative indépendante, qui développe et promeut l'étude et la mise en œuvre de stratégies civiles non-violentes, pour établir ou défendre les droits de l'Homme, la démocratie et la justice à travers le monde.

### **Les activités du Centre**

Favorisant le choix de solutions non-violents aux conflits, le Centre collabore avec des institutions, des organisations non-gouvernementales, et des agences partageant les mêmes objectifs pour :

### **former des activistes**

Selon les demandes, le Centre fournit son assistance pour des ateliers sur les conflits non-violents, auxquels participent des activistes et des citoyens partisans de l'action non-violente comme outil de développement de la démocratie et des droits de l'Homme. Ces ateliers informent les participants sur les aspects conceptuels et les moyens de développer leurs capacités de mise en œuvre des stratégies qu'ils ont élaborées.

### **éduquer le grand public**

Le Centre diffuse ses supports (vidéos, livres et jeux vidéo), ainsi que du matériel pédagogique pour les écoles et les universités sur les réseaux télévisés, l'Internet et les médias indépendants. Toutes ces ressources permettent de promouvoir l'histoire et les fondements des conflits non-violents au sein de sociétés ouvertes ou fermées confrontées au respect du droit.

### **informer les politiques et les médias**

Le Centre organise des réunions et des présentations, co-finance des conférences, diffuse des articles et des études universitaires, afin d'encourager les décideurs à favoriser, plutôt que d'entraver, les actions civiles et les mouvements non-violents. Ces mêmes outils sont utilisés pour inciter les journalistes et les producteurs à étendre et améliorer la couverture médiatique des luttes non-violentes.
